

# Policy Center Maintenance Board 6.6.0 release update

CONFIDENTIAL

# Introduction

The Policy Center 6.6.0 release includes a major update to the delivery of legal research into Policy Center. This coincides with a new back-end internal legal research platform and will resolve timing and delivery related issues associated with the original approach.

# Summary of Changes

## Summary of changes:

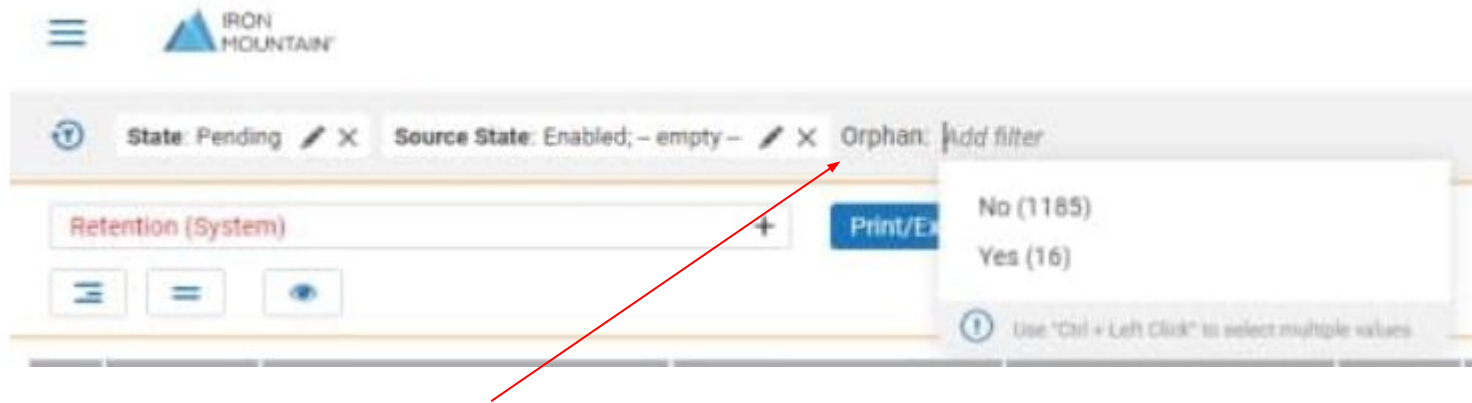

- New maintenance view for Data Compliance citation updates
- Ability to filter on “orphan” citations for direct management within Policy Center
- Ability to toggle on/off “Unattended Mode” to govern citation updates stopping in the maintenance board, or directly updating the Policy Center citation library.

# Data Compliance View

The Data Compliance view has been added to the citation maintenance page.

# Citation “Orphan” filter

The search & filter option on the maintenance page has been updated to include a new option to show/hide “orphan” citations so they can be included in the citation library.

# Unattended Mode

When unattended mode is enabled citations will update the citation library directly.

When unattended mode is disabled citations will be shown on the maintenance board for review.
